

thank you for putting this in place. I am on the list, and it has been wonderful not hearing from telemarketers who call anytime of the day. My number is unlisted which I pay for, and I do not appreciate anyone invading my privacy. I understand people who do this are making a living, but I would prefer putting my name VOLUNTARILY on a list that says it's ok to call me. If it is that important, put a stamp on an envelope and mail it, I'm sure it would be cheaper than a phone call. Thank you for doing this.
